If you have only had 1 exam then the image window will open directly without prompting to open a particular exam.

3. Hovering the mouse over each button on the tool bar will explain their functionality.
4. In order to logout, you need to press the **'Back to worklist'** button  on the top left corner which will take you to the main worklist page. The Log Out button appears on the top right-hand side of this page (screenshot below).
